## GREASE AWAY LIFT STATION DEGREASER

- A tried and true FLOATING STYLE DEGREASER. It is a petroleum-based product that will not harm the operator or the treatment plant.
- This is a special purpose degreaser for the wet wells of sewer lift stations. To be used as directed with easy application.
- Will slow the redepositing of grease on the walls of the wet well and the equipment within the wet well.
- Will not harm equipment.
- Non-toxic
- Contains no added acids.
- Contains no added alkalis.
- Contains no added phenols or chlorinated phenols.
- Discourages insect population and growth.
- The lift station will have less odor problems because the grease is gone from the wet well.
- The flash point of this product is 130 degrees F minimum.
- Has not deleterious effects on bacteria
- Kennison Kemicals has more than 23 years experience and stands behind all products that it makes and sells.
